Royal Brisbane & Women’s Hospital and
The University of Queensland
Cordially invite you to

Transnasal Oesophagoscopy Workshop

together with

Narrow Band Imaging of the Head and Neck:
Theory, Clinical Applications,
Local and International Perspectives

Thursday 30 October to Saturday 1 November 2014
Skills Development Centre, Royal Brisbane @ Women’s Hospital Campus
**PROGRAM: DAY 1**

**TNE (Trans Nasal Oesophagoscopy) Workshop**

09.00 - 09.45  Indications for TNE – Dr Jacqui Allen
10.00 - 11.00  Videos using TNE – Dr Jacqui Allen
11.00 - 11.15  Morning tea
11.15 - 12.45  Practicalities of using TNE in the Private Office setting – Dr Jacqui Allen
12.45 - 13.30  Lunch
13.30 - 14.30  Hands on TNE with selected patients – Dr Jacqui Allen
15.30 - 16.00  Closing Remarks / wrap up and close

**PROGRAM: DAY 2**

09.00 - 09.30  Welcome and Introduction to the workshop – D. Fielding
09.30 - 10.00  Epidemiology and natural history of Neoplastic Lesions of UADT – G. Peretti
10.00 - 10.45  Endoscopic Diagnostic work up for neoplastic lesions of the UADT with special emphasis for those of the larynx – G. Peretti
10.45 - 11.15  Morning Tea
11.15 - 11.45  Technology and principle of NBI – G. Peretti
11.45 - 12.15  NBI and HDTV in endoscopic evaluation of tumours of the UADT – G. Peretti
12.15 - 12.30  University of Brescia study protocol for HDTV and NBI endoscopy – G. Peretti
12.30 - 1.30   Lunch
1.30 - 3.30    Live demonstration (streamed to Skills Centre)
2.00 - 3.45    Results of the HDTV - NBI study for the Oral cavity and Oropharynx – G. Peretti
3.30 - 4.00    Wrap up and close
Local perspectives on NBI (RBWH) and NBI Study Results

09.00 - 09.45  ENT – Dr Robert Hodge and Dr Julie Agnew
09.45 - 10.45  Respiratory – Dr David Fielding
10.45 - 11.15  Morning tea
11.15 - 12.00  Oral Oncology – Prof Camile Farah
12.00 - 12.45  Results of the HDTV- NBI study for the Larynx and Hypopharynx
12.45 - 1330  Lunch
13.30 - 14.30  Results of the HDTV – NBI study for the Oral cavity and Oropharynx – G. Peretti
14.30 - 1500  Questions / wrap up and close
GUEST SPEAKER

Prof Georgio Peretti
Dept Otolaryngology
Genova University

FACULTY SPEAKERS

Prof Camile Farah

Dr Robert Hodge

Dr Julie Agnew

Dr David Fielding

Dr Jacqui Allen
Giorgio Peretti MD, PhD
Dept Otolaryngology, Genova University

From 1986 to 2011 Giorgi Peretti MD, PhD worked at University of Brescia, Italy’s Department of Otorhinolaryngology both as a clinician and as a Professor. Starting from 2012 he has been an Associate Professor of Otorhinolaryngology at University of Genova’s Medical and Postgraduate Schools and the Director of Otorhinolaryngology at Genova’s San Martino University Hospital.

So far, he has authored 68 papers for a selection of prestigious national and international journals, 42 book chapters, and as many as 218 congress and symposium-related publications.

His fields of clinical expertise include laryngology, phonosurgery, and the diagnosis and treatment of benign and neoplastic tracheal diseases. He has been especially committed to developing and improving the CO2 laser-based diagnosis and endoscopic treatment of laryngeal cancer. He has been playing a crucial role in the definition and testing of ground-breaking surgical tools and instruments aimed at novel phonosurgical techniques. He has organized and held lectures at several national and international training programmes in advanced laryngology.

Giorgio Peretti, MD PhD is the Vice President and a Scientific Councilor to the European Laryngological Society, a Corresponding Member of the American Academy of Otolaryngology-Head Neck Surgery, a Corresponding Fellow of the American Laryngological Society, and a Member of the Collegium Oto-Rhino-Laringologicum Amicitiae Sacrum.
Prof Camile Farah  
BDSc, MDSc (OralMed OralPath), PhD, GCEd (HE), GCExLead, FRACDS (OralMed), FOMAA, FIAOO, FICD, FPFA  
Head, Oral Oncology Research Program, UQCCR  
Professor Farah is a registered specialist in Oral Medicine and Oral Pathology and has interests in clinical oral medicine (mucosal pathology, salivary gland diseases, orofacial pain), diagnostic head and neck pathology (oral cancer and precancer), and oral and maxillofacial radiology (Cone Beam CT). He maintains a private practice in Oral Medicine, is Consultant in Oral Medicine & Oral Pathology at the UQ School of Dentistry, and Head of the Oral Oncology Research Program at the UQ Centre for Clinical Research (consisting of 25 staff and students), where he undertakes clinical and translational research into head and neck cancer early detection, molecular diagnostics, and imaging. He has published over 100 clinical and scientific articles including 5 book chapters, and has attracted approximately $5 million in competitive research funding. He is a Fellow of many Academies and Honour Societies, an editorial board member for several journals, and has presented his research at many national and international meetings. He is the Immediate Past President of the Oral Medicine Academy of Australasia, President of the Australian & New Zealand Division of the International Association for Dental Research, and Chairman of the Research Advisory Committee for the Australian Dental Research Foundation.

Dr Robert Hodge  FRCS(Ed), FRCS(Eng) (Ts), FRACS, FAMA, FAICD  
ENT/Head and Neck Surgeon  
Dr Robert Hodge is a medical graduate of the University of Queensland and was trained in ENT/Head and Neck Surgery both in Australia and overseas. Dr Hodge has a higher training certificate from the College of Surgeons in the United Kingdom. He is the Senior Visiting ENT/Head and Neck Surgeon at the Royal Brisbane and Women’s Hospital and was formerly the Director of the ENT Department at the Royal Brisbane and Women’s Hospital. He was also formerly the Chair of the Medical Staff Association of the Royal Brisbane and Women’s Hospital, the President of the AMA of Queensland, a Federal Executive Councillor of the AMA, the State Chair of the RACS in Queensland and Associate Professor of Surgery at the University of Queensland. Dr Hodge has chaired the Head and Neck Clinic at the Royal Brisbane and Women’s Hospital since the year 2000. His current interests are centred on oropharyngeal carcinoma.
**Dr Julie Agnew  MB BS (Hons) FRACS**  
**ENT/Head and Neck Surgeon**

Dr Agnew is a Visiting Medical Officer to the Royal Brisbane and Women’s Hospital and Royal Children’s Hospital. She has been a member of the Head and Neck Multidisciplinary Team since 1993. Dr Agnew has been an examiner for the Royal Australasian College of Surgeons from 2008. She is currently the Deputy Chief Examiner in Otolaryngology/Head & Neck surgery. Dr Agnew is heavily involved in the education of medical students and resident medical officers and registrars. She is the ENT representative on the Medical Advisory Committee for St Andrew’s Hospital Brisbane, and a member of the Australian Society of Otolaryngology Head and Neck Surgery and the Australian and New Zealand Head and Neck Cancer Society. Dr Agnew is also a member of the Medical Benevolent Society Trustee Board.

**Dr David Fielding**  
**Thoracic Physician**

Full time Thoracic Physician at RBWH, Director of Bronchology. Attending the RBWH Head and Neck Meeting for the past 6 years with an interest in use of autofluorescence bronchoscopy and Narrow Band Imaging in augmenting panendoscopy. Two prospective studies were undertaken in this field, one with the assistance of Dr Phan Nguyen, research fellow. Our interest has been in how these imaging modalities can assist in management decisions. Other interests include Endobronchial Ultrasound and pleural disease.

**Dr Jacqui Allen, FRACS**

**International expert in Disorders of the Voice and Swallowing**

Trained in Otolaryngology in New Zealand, Dr Allen has worked in the United Kingdom and United States. She was Visiting Assistant Professor in Laryngology and Bronchoesophagology at the University of California, Davis, until deciding to return home to New Zealand to establish the first Centre for Voice and Swallowing in Auckland, New Zealand. Widely published and a reviewer for several international peer-reviewed journals, Dr Allen has been an Invited Faculty speaker at many international meetings including the World Voice Congress, International Symposium on Human Pepsin and OESO world conference in Oesophagology. Her research areas of interest include airway stenosis, laser technology, laryngopharyngeal reflux disease and cancer development. She has been the recipient of the University of California, Davis, Airway Award.
There is validated parking at $14.00 (week days only). Ask our reception staff to validate tickets on arrival. This applies to Wilson’s Car Park on Herston Road only and not Metro Car Park on Butterfield Street.

RSVP 19 September 2014
